# THE GENERALS SERIES

## SHELFTALKERS

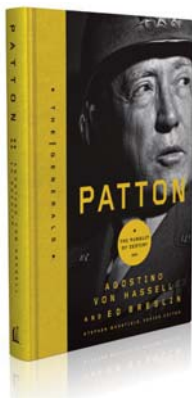

**THE GENERALS** IS A SERIES ABOUT LEADERS WHO STOOD OUT ABOVE THE REST. Each general is known for his character and his drive to constantly strive for more. Of course each has his flaws, but their ability to lead others and the loyalty shown by their soldiers establish these generals as historical figures worthy of recognition and study.

THESE EYE-CATCHING SHELFTALKERS ARE DESIGNED TO INTRODUCE YOUR CUSTOMERS TO THE GENERALS SERIES.

FEEDBACK FROM MANY RETAILERS TELLS US THAT, currently, many of the Generals Series titles are being shelved individually either by author's name or title of the book. Unfortunately, this spreads the series out through numerous shelves in the biography or history sections of your store, making it difficult for consumers to spot the series and discover new titles of interest to them. Stores who have begun racking the Generals Series together have experienced a great deal of enthusiasm from consumers and sell-through of the series. Please use these shelftalkers to group your Generals Series titles together in one location to increase exposure and drive sales.
